

Our Commercial Photography Package: If you are looking for a photographer to take photos for your commercial project, we are able to provide that service. Our photographers have taken photos of everything from fashion shows to employee photos for website use. Not only that, we have also arranged group photo shoots for anywhere from one to nine people in addition to coordinating photo shoots at public events. Our prices vary depending on the purpose as well as the scope of the project. Contact us through our "Contact" link at the bottom of our site and let us help with your business needs!

**And while we do not expect this to be the case, we will state this for the record now: You should be 21 years old (18 years old in most states) or have permission of a parent for a model shoot. Nudity or even partial nudity of a minor will not be considered.**
